

Options of WUP LaTeX class

1. Page size
 - `pagesize155x220`
 - `pagesize170x240` (default)
 - `pagesizeA4`
2. Font
 - `wupfont` (default) → Minion Pro & Myriad Pro¹
 - `alternativefont` → Charter & Helvetica (90%)
3. Layout headline & page numbers
 - `noheadline` (default) → Chapter and section title italic without line, left and right outer border, page numbers in footer left and right outer border
 - `headline` → Use head line style → Chapter and section title left and right inner border, sanserif with headline, page numbers in headline left and right outer border
4. Style
 - `dissertation` (default)
 - `nodissertation` → more free text fields
5. Languages
 - `english` (default)
 - `german`
6. Page options front matter
 - `allfrontmatter` → prints all front matter pages
 - `nofrontmatter` → does not print the front matter pages
 - `halftitle` (default) → prints the half-title page
 - `nohalftitle` → does not print the half-title page
 - `title` (default) → prints the title page
 - `notitle` → does not print the title page
 - `imprint` (default) → prints the imprint page
 - `noimprint` → does not print the imprint page
 - `noacknowledgments` (default) → does not prints the acknowledgments page
 - `acknowledgments` → prints the acknowledgments page
 - `preface` (default) → prints the preface page
 - `nopreface` → does not print the preface page
 - `noabstract` (default) → does not print the abstract page
 - `abstract` → prints the abstract page

¹ Sometimes it's a bit tricky to include the fonts Minion Pro and Myriad Pro in LaTeX. Therefore we offer an alternative font possibility.

- tableofcontents (default) → prints the table of contents page
- no tableofcontents → does not print the table of contents page

7. Graph package options

- nographic → does not load graphic packages
- graphicx (default) → loads the package graphicx for images
- epsfig → loads the package epsfig for images

Default options

twoside, pagesize170x240, wupfont, noheadline, dissertation, english, halftitle, title, imprint, noacknowledgments, preface, noabstract, tableofcontents, graphic

Required packages

geometry, MinionPro or (charter and helvet), microtype, graphicx or epsfig, fancyhdr, titlesec, caption, subcaption
